

# THE FENEX FREIGHT FORWARDER DESERVES YOUR CONFIDENCE

Anyone wishing to ship goods abroad wants to be certain that they will arrive at their destination in the same pristine condition as when they started. There is more to this than meets the eye. The freight forwarder as provider of logistic services is the expert who takes this upon himself on behalf of his customer in trade and industry. He solves logistic problems, has been operating successfully on the international logistic market for years like a spider in its web and is familiar with the obscure and complex transport market.

**FENEX** freight forwarders know that reliability is key - which is why they consistently work at the quality and controllability of logistical systems. But apart from that essential reliability **FENEX** freight forwarders offer one further assurance: the **FENEX GUARANTEE FUND**. Precisely because **FENEX freight forwarders** do all they can to be a reliable partner they provide surety for one another. To cover the event that a **FENEX freight forwarder** gets into financial problems - something which has so far fortunately proved the exception.
